

Press Release-5/31/07-Cincinnati, OH- WOSU-TV, Ohio State Bar Association and Newport Aquarium are added to Central Satellite Services client list.

CentralSat truck #1 was recently used to provide production and uplink facilities for three new clients during April and May.

“WOSU-TV needed an easy, no fault way to get a signal to their broadcast facility for a pledge drive. We were excited to be the conduit for them.” Said Jim Timmerman, Operations Manager for Central Satellite Services. He went on to say, “The Newport Aquarium called us for their first satellite media tour and the Ohio State Bar Association used us to bring a guest from Columbus to an event in Cincinnati. All three projects went off without a hitch.”

Central Satellite Services provided production facilities for the Newport Aquarium SMT. “Kremer Production Services always provides top notch gear and personnel for all our projects. Shawn Heusman, the camera-man assigned to the project, did an excellent job lighting the talent seated in front of a very large and very open white shark jaw.” Mr. Timmerman went on to say, “He also did a great job making their talent feel comfortable with their first satellite media tour, which can be taxing”

Jim commented “Networks, production companies and all kinds of other companies are seeing the benefits of using satellites to get their message to the right audience. After all, we move the message, not the people”
